

It is our pleasure, after some absence, to reintroduce in our catalog a high end bow from PSE. The Mojo 3D is a very interesting bow that is accurate and forgiving. The features that are most remarkable in this bow are: the new Hyperlite

pockets that assure a perfect alignment of the limbs, the Hybrid cams with their module system and the B.E.S.T. grip that allows to have virtually no torque to the bow.

MOJO 3D

-  38 1/2"
-  1.720 g
-  IBO 308 FPS
-  6 13/16"
- Orange **OR**,
Gray **GY**,
Blue **BL**.

Code 551606

NOVA

-  35 1/2"
