AVENGER

In just one short year, the Hoyt Avenger™ has earned its stripes in hunting camps near and far. It's equipped with our ultra-smooth Cam & 1/2, our rugged and reliable XT1000 limbs, a popular 32" axle-to-axle, 309 fps and a long list of value-added features and innovations found on more expensive bows. The Hoyt Avenger: the clear choice for the bowhunter who demands quality, performance and results.

KOBALT

The 2008 Kobalt™ sets a new standard of excellence for short-draw bows. It's a lightweight, accurate, smooth-shooting bow featuring our new Cam & 1/2 Plus. Designed to get more youth and women hooked on archery and bowhunting, no technologies were sacrificed with the Kobalt. It delivers exactly what short-draw archers have been asking for: adjustable draw length, speed, laminated limbs, a forgiving brace height and unequalled reliability. The all-new Hoyt Kobalt: a higher standard of quality and performance in short-draw bows.
