DRENALIN DETAILS

- A.** The Drenalin is characterized by a very wide sight window that allows a perfect view of the target and a unique slim limbs design.
- B.** Besides the usual Harmonic dampener on the riser the Drenalin uses a unique limb pocket that allows a very precise limb positioning.

A.

B.

Detachable quiver, equipped with vibration dampeners. The arrow grippers are adjustable, so they can fit shafts of every diameter.
